WAR BETWEEN JAPAN AND RUSSIA ENDED

The Peace Treaty to Be Signed By the Plenipotentiaries.

ROOSEVELT IS RESPONSIBLE

A Bulletin of the Associated Press Announced the Glad News—People in Portsmouth Happy—Men Shout and Women Weep for Joy.

Portsmouth, N. H., August 29.—A **bulletin was** issued this morning by the **Associated** Press stating that the peace **envoys had agreed** on all points.

Japan and Russia have agreed to **sign a peace treaty as soon as details are completed.** An armistice will be **arranged at once.** The envoys, at the **meeting this morning, arrived at complete accord** on all questions in dis**pute and announced at** 12:30 o'clock **that they** would at once proceed with **the elaboration of a treaty of peace.**

Japan absolutely waived all demand for a cash indemnity. This **was in accordance** with the decision **reached by the elder statesmen** in Tokio **yesterday.**

The people of Portsmouth **were much enthused,** the men shouting **and the women** weeping for joy. The news **spread rapidly and** President Roose**velt was given due credit** for his success **at the work** which all others **dreaded.**

Japan gets no indemnity, but $350,000,000 for feeding Russian prisoners.

MAN FELL FROM BALLOON.

Was Dashed to His Death 12,000 Feet Below.

St. Louis, August 29.—Releasing his **grasp on a** trapeze attached to a parachute as the latter, twelve hundred **feet above** the ground, John Williams, **38 years** old, has been dashed to his **deaths** at Red House park, near Ca**hokia**, Ill. Every bone in his body **was** broken as Williams struck the **ground** with fearfully force. **The tragedy is said** to have been the result **of the vicitim's** intention to make balloon ascension.

As the aeronaut prepared to make **the ascension** Williams was said to **have** rushed forward and seized the **trapeze** bar, **calling** to his friends "Goodyby." **As** he clasped the bar **the balloon rose** into space, carrying **both the aeronaut and** Williams. **As the parachute** commenced to fill in the **wind** and the rapid descent of the **canvass will be** suddenly checked, Wil**liams**, whose strength **was exhausted, was jerked** loose from the bar **and his body shot** downward.

The aeronaut plunged and lit a **few yards away** from the scene where **Williams met his death.**

Fatal Fight at Picnic.

Meridian, Miss., August 29.—At a picnic at Union Sjrings, Kemper county, **Frank and Manson Chisolm**, first cousins, **engaged in a difficulty**, both being fatally wounded. During a personal altercation in the presence of a crowd of ladies, **Manson Chisholm** advanced on his cousin with a knife, stabbing on either side of the neck, inflicting mortal wounds, and attempting the third cut but **Frank Chisolm**, while falling, pulled his pistol and shot twice, both bullets taking effect in the breast and stomach. **Manson Chisolm** died almost instantly, and **Frank** is reported dying.

Price of Cotton Goes Up.

New Orleans, August 29.—**New high levels** for cotton were marked **in the** trading up to the noon hour, **October** then being 12 points up at **11.08, December** 10 points up at 11.15, **and January** 18 points up at 11.34. **The continued** drought in Texas **scared Liverpool** into a further advance than due, and the statistical reports, showing that for the first half of the year American cotton exports were three times greater than for the first half of last year, or amounting to 388,000,000 yards, compared with 129,000,000 last year.

EXCURSION TRAIN WRECKED.

One Man Is Killed; Several Injured in Railway Collision.

Logansport, Ind., August 29.—One man was killed, another fatally injured and a number of passengers seriously injured in a collision which occurred on the Pennsylvania railroad in the collision which occurred on the Pennsylvania railroad in the south yards about 3 miles north of this city early this morning. Fireman Walter Eversole, of Richmond, Ind., is dead, pionioned beneath his engine. Engineer Grady was thrown beneath his engine and both legs were severed. He cannot live.

The injured are James Henderson, Logansport; County Treasurer Owen McGreevy, Logansport; T. C. McGreevy, Hamilton, O.; George Brown, of Logansport.

The wrecked train was an excursion returning from Cincinnati.

As it entered the south yards at a high rate of speed, freight train No. 72, southbound, was just leaving the main track and the excursion train crashed into it. There were ten cars on the excursion train, four of which left the track. The baggage car and smoker were splintered. The third and fourth coaches were knocked from the trucks but did not overturn.

There were about 40 passengers on the train and all suffered to some extent. The local Pennsylvania officials were unable to account for the freight train being on the main track. At the place where the wreck occurred there are seven tracks, and all but one is blocked by the wreckage.

IMMIGRATION CONFERENCE.

Big Meeting Is Planned to Bring Laborers Into the South.

Chattanooga, Tenn., August 29.—On the initiative of the Huntsville, Ala., chamber of commerce, concurred in by Charles P. Lane, president of the Alabama Commercial and Industrial association the Huntsville chamber of comerce had formally agreed to join these commercial organizations in a call for a southern immigration conference to be held in the city of Chattanooga on Oct. 24-25. The parties to be invited to this conference are governors, commissioners of agriculture and immigration, members of congress, mayors of cities, boards of health, state and national general immigration agents of railroads and representatives of commercial organizations throughout the south.

The objects o fthe conferences are to consider plans for uniform quarantine regulations, needed changes in immigration laws and state control over immigrants brought in by labor or immigration agencies to the end that undesirable classes may be restricted from the south and the nation. A formal call will be issued by this commercial organization in the near future and a program arranged for the same.

Peddlers Threaten to Strike.

New York, August 29.—Pushcart peddlers to the number of several thousand, who threatened a few days ago to strike and deprive a large East Side section of its fresh vegetable supply, have now decided to try moral suasion against the city authorities forego a strike. The peddler's union met yesterday and took this course. They decided to begin by appointing a committee to call on the mayor in an effort to have withdrawn a large number of peddlers' licenses now in the hands of small storekeepers and to secure other benefits affecting their business.

President Views Marine Boats.

Oyster Bay, August 29.—President Roosevelt and party today witnessed the maneuvers of the marine boats. The weather was quite different from yesterday when the president himself made a dive in a plunger of the tiny vessel 40 feet below the level of Long Island sound. Swift northeast winds were blowing, but the rain had ceased and the sun soon burned away the early morning haze. The test of the plunger took place in the waters of the sound a short distance outside the entrance to Oyser Bay. The boat operated in about 7 fathoms of water.

HOPES BASED ON AN EARLY FROST

Fever Situation Under Control, Declare Officials.

FEVER SPREADS IN COUNTRY

Government Official Visits Other Stricken Communitier, and Will Render All Aid Possible—Twelve Cases Discovered at Natchez.

New cases at noon, since 6 p. m., Sunday, at New Orleans—22.

Total to date—1,705.

Deaths—5.

Total to date—269.

The daily reports of New cases of yellow fever and of those under treatment continue to show a diminuition in number in what has been the fever belt. With the sudden change to unseasonably cool weather, however, the season of high mortality may manifest itself.

New Orleans, August 29.—The fifth week of the fight against yellow fever began today with a continuance of favorable conditions and wit hreason for hope that the crisis has passed, the fact that there are only 199 cases under treatment and many of the lightest character being especially significant. In the 31 cases in the preceding four hours only five were Italians and there were only three cases reported from the originally infected Italian quarter. The authorities have felt that when the sickness is practically stamped out of this district it will be comparatively easy to control it elsewhere and there is encouragement to the Sunday report, the fatalities continuing largely among the foreign element.

Surgeon Guiteras went to Patterson today and Surgeon Corput started on a tour of the surrounding country. The marine hospital service has now a man in touch with every infected point outside of New Orleans, Surgeon Von Ezdorf, having started for Leeville, from which the information continues to be vague owing to its isolation.

Today's reports bring advices of general quarantine against Natchez, all the Mississippi towns cutting off communication with that city, wihch has not been difficult in view of the fact that it is not on a main line of railroad.

Vidalia, La., which is on the opposite side of the river, has suspended ferry communication. Many Natchez people are anxious to leave, but they have no means of getting out of town.

Iberia parish, through which the Southedn Pacific runs, has a fresh right, and has cut off all passenger communication with the rest of the state. The railroad is disposed to obey the regulation, assuming that as Iberia will suffer most, an early abrogation of it will be asked.

Alexandria is free of fever, and advices from there say all signs indicate an early frost. Tree leaves have been falling for several days, and the wild geese have been passing over the city bound south. Reports of low temperatures come from various points in the southwestern section of the state. The weather here was unseasonably cool this morning. While there has been no sickness at Jackson barracks, Dr. Ames, of the United States army has had Levi E. Folk, a private of th efirst class, hospital corps, ordered here to be stationed at the barracks. Private Folk is one of the men who were used in the experiments of the Reed commission in Cuba, and is regarded as the best yellow fever nurses in the government service.

Fever Under Control.

President Kohnke, of the city board of health, today corrected the statement attributed to him in the press that there was no hope to stamp out the fever before frost. Dr. Kohnke said what he had said was that the last case might not be reached before frost because of concealment or other similar reason, but that the fever is already controlled and the date of the last case was not of as great importance as the winning of the fight for control. Dr. Kohnke said that the great damage of yellow fever to New Orleans was not so much its death rate, for it had been shown this year that it was not the deadly disease of ancient times, but to the city's commerce, resulting from the panic of outside communities.

Situation In Mississippi.

Jackson, Miss., August 29.—Surgeon Wasden, of the marine hospital service, left this afternoon for Natchez, to make a confirmatory diagnosis of the yellow fever cases reported from that city. The suspicious cases reported from Hattiesburg and Indianola turned out on diagnosis by experts not to be yellow fever. Surgeon Young and Superintendent Savage, of the Valley Roard, left this morning to arrange for a train service on this road and to select the site for the relay station, as no train crews from Natchez will be allowed to enter Jackson.

Miners Are Satsified.

New York, August 29.—President Baer, of the Reading railroad company, who returned Saturday from a trip to the west does not expect a strike in the anthracite region. "While I have not been in close touch events in the last few weeks," he said, "from what I have heard I believe the miners are better satisfied with present conditions and will make a peaceful adjustment of the wage scale for another term of years. The coal interests will certainly do their part to avert a strike."

Camels Lived in California.

Berkeley, Cal., August 29.—A bulletin on an extinct species of camel that once lived upon a time roamed the regions of prehistoric California, has been issued by the geological department of the University of California. In the region about the Potter Creek cave, Shasta county, were unearthed various portions of the camels that existed during the quartenary age. Besides the remains of camels, a large number of species of the quartenary mammals were found.

Want University Laws Amended.

Odessa, August 29—The ministry of public instruction has been notified that the officials of the local university and other institutions of its intention to amend the university statutes of 1884, which have been condemned by the professors and students all over the country. A meeting today of 342 professors decided to continue to abstain from participation in the university work until a new order of things is established and the people are given civil rights and the universities are granted full academic autonomy.

New Officials for Brazil.

New York, August 29.—Nominations for vice president of the republic offers some difficulties in consequence, says a Herald dispatch from Rio de Janeiro of the opposition of Pernambuco men to the nominatio nof Nilo Pacanha, governor of the state of Rio de Janeiro. As for the presidency the nomination of Alfonso Penna, at present vice president, has been definitely decided.

Negro Lynched in North State.

Newbern, N. C., August 29.—John Moore, a negro 20 years of age, was taken from Craven county jail in this city, early Sunday and lynched by a mob of 100 masked men, armed with rifles and revolvers. With his hands tied behind him, the negro was led out to the draw of the Neuse river bridge, hanged to one of its braces and his body riddled with bullets.

Repeal Support to Booker's School.

Montgomery, Ala., August 28.—Rumors are current that at the next session of the Alabama legislature an effort will be made to repeal any section of the laws which tend to recognize the Tuskegee negro school now over by Booker T. Washington according either financial or moral support. This feeling is due to the recent Washington-Wanamaker incident.

Killed Over Land Dispute.

Nashville, August 29.—In a difficulty over land matters Roland Moore killed P. Murray at Morton's Gap, Ky. both men were prominent farmers.

HOLMES SURRENDERS TO THE AUTHORITIES

Former Statistician of Census Bureau Gives Himself Up.

IS CHARGED WITH CONSPIRACY

District Attorney Beach [illegible] Holmes' Attorney With Trying to Get Prisoner Out of This Country. Bond Fixed at $10,000.

Washington, August 29.—[illegible] associate Statistician E. S. [illegible] of the department of agriculture, indicted with Peckham and [illegible] New York, charged with conspiracy to defraud the government by fraudulently divulging the department crop reports, surrendered to the United States marshal today and appeared before Justice [illegible] gave bond in the sum of $10,000, amount agreed upon last Saturday before his arrival in this city. He was taken to the marshal's office by attorneys, Messrs. Lester and [illegible] who also appeared with him in the court room.

District Attorney Beach made an effort to increase the bond to $50,000, but the effort was opposed by Mr. Lester, and did not succeed. In asking for an increase Mr. Beach filed an affidavit reciting the [illegible] Holmes to appear Saturday in accordance with an agreement between himself and Attorney Lester, and charged Mr. Lester with aiding Holmes in evading the execution of a writ for the latter's arrest Saturday. He also stated that facts had come to light showing that Holmes had realized $50,000 in December, that he had recently sold a mine in the state of Washington for $73,000, and had large sums of money in bank and safety vaults. It was said that the offense charged against Holmes is not extraditable, and urged that all these facts justified a large bond. In reply Mr. Lester characterized as "grandiloquent" statements that he had assisted his client in avoiding arrest, and gave in detail all the perigrinations of Mr. Holmes since he fell under suspicion. He said that his client had at different times since then been near the Canadian boarder and could easily have escaped to another country had so desired.

He also repeated that Holmes' failure to present himself on Saturday was due to delay in getting the writ to Holmes. The fact was brought out that Holmes was in Washington, N. J., from Thursday to Saturday last week.

Boycott Gradually Subsiding.

Washington, August 29.—[illegible] ular importance to the southern spinners and weavers is the announcement by Minister Rockhill that the Chinese boycott on American goods is about to be lifted. Word from Pekin, the minister says, this information is to the effect that the anti-American boycott movement is gradually subsiding. The Chinese merchants of Shanghai dealing in piece goods are strongly opposed to the boycott and taking steps to break it. Minister Rockhill believes that so far as piece goods are concerned.

Argentina Debt Extended.

New York, August 29.—[illegible] for the conversion of the [illegible] bonds of the Internal debt matured yesterday, says a Herald dispatch from Buenos Ayres. Argentina's total of holders of $61,000,000 [illegible] $18,000,000 adhered to the conversion plan, besides those of $5,000,000 Europe and of $4,000,000 in London and other European cities, making a total of $55,000,000. There remains only $8,000,000 under the old conditions.

To Control Macedonia's Finances.

Constantinople, August 29.—[illegible] tive note from the six embassies giving notice of the appointment of the commissioners to control the finances of Macedonia, was presented to the Porte today.

THE ILLUSTRATED LECTURE.

Seminary Hall Was Well Filled, and the Lectures Enjoyed.

Seminary Hall was well filled Tuesday evening by the best people of Gainesville, to hear the illustrated lecture by Prof. Arthur Williams, professor of history and civics, and Prof. L. W. Bucholtz, principal of the University Normal.

The exercises were opened by a lecture on "The Mosquito, and How He Transmits Disease," and "The Coming Eclipse of the Sun." Prof. Williams handled his subject in the usual masterly manner, which was fully illustrated, and rendered in an impressive and interesting manner.

Prof. Bucholtz spoke of the Old World, illustrating his lecture with a number of handsome views.

Altogether, the affair was a most pleasant and instructive one, and those present are under obligations to the lecturers for an evening's entertainment.

ARNOW-CARLTON.

Two Popular Young People Will Wed Tonight.

There will be a wedding at Micanopy this evening, the contracting parties being G. Maurice Arnow and Miss Grace, the charming daughter of Mr. and Mrs. W. A. Carlton. The ceremony will be performed by Rev. P. J. Lynch of St. Patrick's Catholic Church, this city, who left for Micanopy last night.

The wedding will be of a quiet nature, only members of the families of the contracting parties and a few intimate friends having been invited.

The groom is a son of Mrs. M. C. Arnow of Micanopy, and a nephew of Postmaster Geo. J. Arnow of this city. The propective bride is one of Micanopy's most popular young ladies, being one of the leaders of society.

The Sun, with other friends, wish the happy couple much prosperity in advance.

ARCHITECTS ARE HERE.

Messrs. Edwards and Walter Will Look Over University Grounds.

W. A. Edwards and F. C. Walter, composing the firm of Edwards & Walter, architects, Columbia, S. C., arrived in the city Tuesday.

This firm was among the numerous applicants before the Board of Control at its last meeting in Jacksonville, in the matter of furnishing plans and specifications for the proposed University buildings and was one of the very few selected. The gentlemen are here for the purpose of looking over the grounds with a view to submitting plans at the next meeting of the board.

This firm is no stranger to the people of Gainesville, having furnished plans for the Gainesville Graded and High School building and the First Baptist church. They have also furnished plans for other fine buildings throughout Florida.

FUNERAL OF MR. BROWNE

Large Crowd Present to Pay Last Respects to Departed Friend.

A large number of sorrowing relatives and friends gathered at the home of the late Mr. Gilbert H. Browne, the death of whom occurred Monday evening, at 3:30 o'clock Tuesday afternoon, to pay their last sad respects to the memory of the deceased, who has for the past quarter of a century been one of Gainesville's loyal citizens.

Deceased was a member of the Methodist church, but owing to the absence of Rev. T. J. Nixon, who is assisting in a revival at Waeahoota, the services were conducted by Elder Christopher Matheson of the Presbyterian church.

The floral decorations were both profuse and fragrant, being sent in by many friends.

Monteocha Musings.

Monteocha, Aug. 26.—The cotton crop is off considerably in this section this year.

O. W. Maines, the only merchant and ginner of Monteocha, has ginned three bales of cotton. He says it is soon to be ginning.

There is lots of cotton here in the fields, but the ginners cannot get people to pick it.

The hardest rain that has fallen here in some time fell on Monday evening, Aug. 28.

THE NEWS FROM BELL.

Town Has Resumed Businesslike Appearance—Other Notes.

Bell, August 29.—The autumn winds have come again and Bell has resumed her businesslike manner, and all our merchants have bright smiles on their faces.

R. Lancaster and Jones E. Bryant, two of Bell's enterprising young business men, returned from Jacksonville Saturday night, where they have been in the interest of their fall trade.

J. M. Roberts & Co. of Bell started up their ginnery yesterday for the season. Mr Roberts anticipates doing a good business this season.

The home of Mr. and Mrs. Henry Parrish was the scene of a happy wedding last Thursday evening, when their daughter, Miss Minnie, was wedded to Louis Kinsey, a prosperous young farmer of this vicinity. Judge S. O. Barron officiated.

The mill of justice was set to grinding in our little burg Monday morning when one Dan Clemons of Wannee was arraigned before His Honor Judge Barron to answer to the charge of selling liquor in a dry county. The State was represented by Attorney G. W. Scofield of Gainesville and the defendant by Col. D. M. Gornto of Starke. Evidence being heard for and against defendant and able argument by both attorneys, Judge Barron rendered his decision of not guilty.

ALACHUA HAPPENINGS.

Dr. Cloud Sells Brick Block—Other Notes of Interest.

Alachua, Aug. 29.—The happiest boy in town is little Ferman Jack Williams, who is the proud possessor of a Shetland pony. His father, J. R. Williams, bought it in Atlanta, Ga., a few days ago, and had it shipped to this place. He only weighs 180 pounds. He is a privileged character, and follows him into the stores and dwelling houses.

The Alachua Telephone Company has connections with Gainesville and Bland, and will soon connect with La-Crosse and Hague.

The ginnery of Mizell & Williams is running on full time, after installing their gasoline engine.

The K. of P. Lodge meets every Thursday night. All visiting brothers are cordially invited to attend.

Dr. J. L. Cloud has sold his brick building, now being occupied by the Alachua bank, to M. J. Eddy, and will soon commence the erection of a drug store on Main street.

Will Powell of Orange Heights is now visiting his brother, L. B. Powell.

Rev. H. M. Outland of High Springs preached to a large and attentive audience at the Methodist church last Sunday night.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

The Pillory In England.

It is difficult to realize that as late as June 28, 1830, so barbarous a punishment as that of the pillory was still inflicted. One Peter James Bossy stood in the pillory in the Old Bailey on that day for perjury and was the last of a long line of victims, for it was abolished immediately afterward. Originally, like most mediæval punishment, it was intended more as a disgrace than as a bodily discomfort, but a crowd that would watch all night to gloat over a public hanging in the morning naturally did not spare the victims of the pillory, who sometimes died from the treatment they received. More humane was the punishment for perjury in 1468, when the offenders were merely sentenced to ride from Newgate to Cornhill with paper miters on their heads. But they knew a thing or two in the middle ages, and no doubt there was a street boy even in 1468.—London Chronicle.

INDUSTRIAL EDITION.

On Thursday, November 16, 1905, the publisher of The Gainesville Daily Sun will issue an Industrial Edition of this paper, which will comprise a complete descriptive write-up of Alachua county, including the city of Gainesville, giving a description of its Industries, Mineral Products, Resources of the Soil, as well as its Educational Advantages, Future Prospects and its adaptability as a home for those seeking a location for business activity or for health.

This edition will be printed on high grade book paper, profusely illustrated, with an illuminated cover that will be highly attractive. The edition will comprise 20,000 copies of 36 pages each, including the cover, and will be of great value to those who desire to send them away to their friends, as the facts it contains will be thoroughly reliable.

A limited space will be reserved in this Industrial Edition of The Sun for the use of legitimate advertising, and reliable business houses will find it to their advantage to communicate for space at the earliest possible date.

The Object

Of this edition is to have a greater portion of the 20,000 copies for FREE distribution at the Florida State Mid-Winter Fair at Tampa, November 15 to 30, 1905, to familiarize the people who visit that exhibition with the advantages offered to settlers in Alachua county, the county of varied resources and the Hub of the Peninsular State of the South.

It's pretty tough on the fatted calf that it should have to suffer for the sins of the prodigal son.—Philadelphia Record.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

EXAMINATIONS FOR STATE CERTIFICATES

Will Begin Under Direction of Supt. Holloway Today.

APPLICATIONS ARE NUMEROUS

The Examination Will Embrace State Certificates and Certificates for Primary Work—Miss Rowena Longmire Will Assist.

Hon. W. M. Holloway, State Superintendent of Public Instruction, arrived in the city Tuesday afternoon from Tallahassee, accompanied by his little daughter, Miss Idella.

Prof. Holloway came for the purpose of conducting the examination of applicants for State teachers' certificates, and certificates for primary work. He will be assisted in the examination for primary certificates by Miss Rowena Longmire, principal of the primary department of the University Normal.

The examination will be open to all teachers throughout the State who desire to apply, and several are here now for that purpose. The examination will be conducted in the court house, beginning at 9 o'clock this morning, and indications are that there will be a good crowd of applicants.

Prof. Holloway is among the friends of his former home, all of whom are glad to see him.

ELKS WILL BE HERE.

Will Come From All Quarters With Antlers Trimmed For Work.

The Elks will be pouring in from every section of the State today, for there will be "something doing" in Gainesville, and from what has been said every Elk will have his antlers in proper trim for the occasion.

Gainesville Lodge No. 990 will be instituted by Ocala lodge, under direction of District Deputy J. B. Burbridge of Jacksonville. Mr. Burbridge will be accompanied by several members of the Jacksonville lodge, and Elks from various sections of the State have promised themselves and friends to be on hand upon this festive occasion.

Inasmuch as there will be enough work to keep the visitors busy for several hours, they will get busy at 4 o'clock, immediately after the arrival of the train from Ocala.

The institution will conclude with a banquet at the Brown House, where the newly initiated members may talk together over their experiences.

THE YELLOW FEVER.

Nineteen New Cases Reported Up to Noon Yesterday.

New Orleans, August 29.—Number of new cases reported up to noon today was nineteen; number of deaths was three; total cases to date, 1,807; total deaths, 283.

There is some fear of trouble if the regulation to depopulate all towns where fever appears is enforced. New Orleans merchants fear it might induce people to leave town and other communities not to receive any freight.

At Other Places.

There are 200 infected negroes at New Providence, La.

Vicksburg, Miss., is in a panic and provisions are needed.

Texas has quarantined against Mississippi and demands a strict enforcement.

Charges will be filed against Surgeon [illegible] of New Orleans for reporting [illegible] infection at Memphis.

REAL ESTATE STILL MOVES.

The James Proud Place, North Gainesville, Sold to J. I. Prevatt.

Real estate continues lively in this city. Several important transfers have been made recently, among these is the transfer from M. B. Saunders to J. I. Prevatt of the James Proud place, North Gainesville, comprising thirty-five acres of as good land as can be found in the county, comfortable houses, barns, etc., and a spring of as pure water as can be found in the South.

Mr. Prevatt has been living on the place for about a year.

Attention, P. O. S. of A.

There will be a social held in the P. O. of A. hall Wednesday evening, August 30th. All members are requested to come and bring their families.

F. P. BULLOCK, President.
C. A. HARREN, Secretary.

Shortage at Dispensaries.

Charleston, S. C., August 29.—Inspector Floyd returns to Charleston this week to resume his investigation of the accounts and stock of the dispensaries, his trip last week having found one of the four places examined to be short nearly $3,000. There are six whisky and three beer dispensaries to be examined and reports of other shortages are expected. The alleged shortage has attracted attention on account of the important disclosures which have been made by the commission of the legislature which recently met at Spartanburg and then at Columbia.

Big Labor Parade for Gotham.

New York, August 29.—Plans were completed yesterday from a local labor leaders for a labor day parade which they claim will eclipse in point of numbers and display anything of the kind ever attempted in this country. More than 50,000 union men will be in line. Every union to be reported in the parade will place every man on its membership roll in line of march or as nearly so as is possible.

Taft Party at Olingapo.

Manila, August 29.—A dispatch received here this morning reported the arrival of the transport Logan at Olingapo on board. The Logan was scheduled to arrive at this port this morning came in on time. Olongapo is a harbor in Subig bay on the southeast coast of Luzon, within a short sail of Manila. It is the naval base of the American Philippine squadron.

Laundrymen's Association Meets.

Philadelphia, August 29.—The National Laundrymen's association began a three days' convention in this city today. Delegates are in attendance from all sections of the country. In addition to the laundrymen there are present reports from every industry connected with the laundry business.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Horrible Heroism.

One of the Resolution's gunners was standing by his gun as the ship sheered abreast of De Grasse's flagship. The gunner was all ready, just going to fire, when a shot came in at the port and took his leg off at the knee. As quick as thought the man pulled off his neckcloth and tied his leg above the stump. The next instant he seized his shot off limb and thrust it into the muzzle of the gun, which went off two seconds later. "My foot," shouted the man exultantly, "is the first to board the Ville de Paris."—Fraser's "Famous Fighters."

A Famous Beauty.

Mme. de Remusat had features so perfect that her contemporaries said she was worthy to sit as a model for a Greek goddess. The flesh of her face closely resembled alabaster, and yet she was not pale and did not give the impression of being in delicate health. Her beauty attracted universal attention to her, no matter where she went, and even in old age she retained most of her good looks.

Simpler.

Simpler. They are going to be married? Why, I didn't know they were engaged. Smarter. Well, you see, there are so many engagements broken nowadays that they thought they wouldn't get engaged—just simply married.—London Answers.

Tar and Feathers.

"The Greek was the first to apply tar and feathers to the body of an offender," said a doctor. "Then, as now, this punishment of the victim was considered one of the worst possible. In fact, tarring and feathering was considered a greater punishment than hanging. It was a living punishment of the most repulsive kind. Aerating of the blood to a certain extent through the skin takes place, and in the naked skin fissures this is a very important part of the aerating process. In man the skin does about one-thirtieth part of the work, while the lungs do the rest. It has been demonstrated that frogs live but a few hours after having been given a coat of varnish. A man that is so unfortunate as to receive a coat of tar and feathers so soon as freed from his persecutors seeks to free himself from the recently applied tar. A man with good kidneys could endure longer such an application than one suffering from an attack of any disease affecting the kidneys. Death might follow his suffering. The skin is a great absorbent agent."

Democracy on Warships.

Visitors to the big warships in the navy yard are astonished at the way the men address their officers with the title of "Mr." Everybody below the grade of captain on the ship is addressed with a simple "Mr." This is to save time, as commander, lieutenant commander, lieutenant and midshipman require too much time to enunciate. A national guard officer of rank below that of major visiting the yard the other day was surprised to hear a lieutenant commander referred to as "Mr." The very thought of such a thing happening to him in the armory made him almost shiver. "Ah," said he, "I see why it is. The officers are on board day after day, while we guard officers are in the armory only now and then. Consequently, we can stand a little waste of time in hearing our titles uttered."—Brooklyn Eagle.

The Slit in the Coat Lapel.

A unique and beautiful custom among the orthodox Jews is directly responsible for the angular slit in the lapel of the modern coat. The Jew when death visits his household takes a knife and, cutting the lapel, murmurs in Yiddish, "O God, I accept thy judgment." This custom has come down from antiquity and is known as "krea" (rending the garments). The cutting of "krea" is associated with such solemn and religious obligations that many a stern Hebrew father, as a punishment for a son or daughter who marries out of the faith, will rend his garment as a token of the death of such a child. The act is emblematic of the profoundest grief, but also has its comforting influence, for it accepts with the resignation of the typical religious Jew the will of the Almighty.

A Story With a Moral.

A prominent New York banker was dilating on the dangers of deceit. By way of illustration, he told of a society woman who saw in a jeweler's window a collar of pearls that she wanted. She inquired the price and was told $6,000. She gave her check for $3,000, saying she would send her husband to see the pearls, but the jeweler was to tell him they cost only $3,000. The storekeeper was familiar with that sort of game and agreed. The husband came to see the pearls, and that evening told his wife he had bought them. His wife delightedly asked if he had brought home the collar, whereupon he replied: "No, dear; I had it sent to my mother. You know, it is her birthday tomorrow."

The Blue Scarecrow.

The farmer's scarecrows were all garbed in blue.

"A blue scarecrow," said the man, "does more good than ten ordinary ones, for birds hate and fear blue as you and I hate and fear typhoid and consumption. A professor pointed out to me that blue was the thing for birds. At first I was unbelieving, but I experimented and found that professor to be right."—Philadelphia Bulletin.

Laughter.

Spontaneous happy laughter tells always of goodness, and the man who never laughs must not blame his fellows if they think there is something wrong with his life, something dark within. If the streams which flow out are only bitter, the fountains cannot be sweet.

Motherhood

MOTHERHOOD is the reward nature bestows upon healthy womanhood. Women whose vitality has been sapped by disease cannot safely give birth to children. In pregnancy and childbirth weakness of the mother is revealed in the pain and agony she suffers.

This great medicine drives out every vestige of inflammation and weakness, and gives tone and strength to the delicate organs which mature the child. The pains of pregnancy are banished by Wine of Cardui, and miscarriages, which blast so many fond mother's hopes, are prevented. Flooding, which so often occurs after childbirth, is corrected when Wine of Cardui is used during pregnancy.

Wine of Cardui babies are healthy babies, because, during the months of pregnancy, the mother is able to give them necessary vitality and strength.

With these facts presented to American women no expectant mother should be satisfied without the reinforcement that Wine of Cardui will give her. Every mother should be able to treat herself in her home with this valuable medicine.

Wine of Cardui can be secured from any druggist at $1.00 a bottle.

Polycarp, N. C., Jan. 11, 1902.

I am the mother of seven children and while in pregnancy with the first six suffered untold misery until they were born. One month before the seventh was born I began to take a bottle of Wine of Cardui, which gave me relief after taking three doses. I used the remainder of the bottle until the birth of the child, and was stouter in three days after the birth than I was in a month after the birth of either of the first six. I am 29 years old.

Tampa tobacco men are liable to get into considerable trouble. Tobacco from Cuba has been sent to New York when it had only been paid to Tampa, and packages marked fillers are found to be the finest wrappers. Tampa officials will have to settle.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

The Misses of Pensacola is undecided as to the constitutionality of the "Jim Crow street car law passed by the city council of that municipality. The lawyers don't seem inclined to figure out.

The farmers of Florida are better off than those of California, having a much smaller per cent of debts on their farms. With the low price of land, and crops the soil will produce, a small amount of fuel and clothing there is a better chance for the people of modest means in Florida than in any other state in the Union.

It is well enough to keep an eye on the yellow fever situation, and the quarantine with which the fellow at Pensacola was arrested at Pensacola for trying to dodge the quarantine at Tampa, is evidence that the officers are attentive to their business. The task is a difficult one, but Dr. Porter and his men deserve the praise of the people of Florida for their earnest endeavors.

THE WAR GAME.

No war in Europe or Asia has ever been watched more carefully by the people of the enlightened world than has the struggle now about closed between Russia and Japan, and the people of this country are familiar with everything except the names.

The sympathy or ninety-nine out of every hundred persons in the United States has been in favor of Japan, because Russia is governed by a dissolute set of men ministering to a dough man with a crowd on his head, who only is aware of the sacreligious idea that he is ruler by divine right, because he has been told so by his lecherous henchmen, while Japan has shown herself a nation of advancement and modern ideas, and possessed of sufficient manhood to stand up and assert her rights in defiance of this monster despot, whose very existence sprung from oppression.

Russia has never been conquered, although most handsomely whipped on several occasions, having always made terms to escape such humiliation. Although she has prided herself on the valor of her terrifying Cossacks, it has been shown in the war in the Far East that they are a back number; the new ideas of the Japs being even more effectual in battle than their barbed steeds and efforts at overwhelming charges that once were feared by the ignorant hordes they faced because they were declared irresistible.

All this has passed now. Russia is no longer the terrible foe she was when Ivan earned that title, and it is because she has not taken advantage of education, knowing that such would mean the downfall of her own corrupt institutions. Although not conquered, she has been severely chastised for her insolence, and Japan has won a place among the nations.

While some may scoff at the idea of civilization making nations better fighters; that it is a poor civilization, and all such remarks, it is as reasonable as anything in the world to suppose that an intellect that has been trained is much better than an addled pate that has become steeped in vodka and deadened by other methods of dissipation.

While the peace terms brought about to stop the war have not been agreed to in every one of the twelve articles eight of them have, two articles were withdrawn and two compromised, which shows that the great bear has had his claws ground down sufficient to make his feet extremely sore and manifest a desire to retire from the arena. With equal resources there could be no doubt of the ultimate triumph of the Japanese, and even as it stands now she is entitled to much praise for the effort made and her achievements on land and sea.

FLORIDA CROPS.

Last week's report of the crops in the State was not so favorable as could be desired, yet there is no great damage, unless it be to cotton. The tobacco crop in many sections is immense, because of the attention given it. The weather averaged slightly cooler than the normal, with heavy to damaging rains over the greater portion of the State. In most sections farming operations have been retarded. Cotton has suffered seriously in the northern, western and some portions of the central counties, some sections reporting only half a crop; rust and dropping were of frequent occurrence. In most counties it has been too wet to harvest hay. Grass and beggarweed crops look well. There is some complaint that corn in the field has been damaged considerably. Cane, potatoes, peas and minor crops are growing nicely, and groves are reported as being in excellent condition.

Six colored females broke out of the Jacksonville jail Saturday night and walked away. What do you think of that for a jail? And nine alleged murderers are being held there!

GOOD RED BLOOD.

It Generates Good Manners, Good Morals and Good Morning.

Every morning is a good morning to one who is feeling well. There is no such thing as bad weather. There are no blue Mondays or gloomy Sundays to any one who is living the right sort of life.

The good cheer of health, combined with a pure life, serves to turn every morning into a good morning and every evening into a good evening.

The best way to wish any one good morning or good evening is to set before him the example of right living, for it is through right living that good morning and good evening come.

It is of no use to say grace over a badly cooked meal. The grace will not make it agree with the stomach. There is no use to say good morning or good evening unless we do the things that will make good morning and good evening. It is, indeed, a good morning for any one who has done an honest day's labor at some useful employment and has found eight hours of sound and refreshing sleep. Of course, it is a good morning when one does that. There is one thing that is needed, and that is to get right or to become adjusted to nature.

We like the weather when we are adjusted to the conditions about us. There is nothing wrong with the weather. The blame is with ourselves. The anaemic, nervous woman shudders at the touch of the spring zephyrs which would be refreshing and grateful to the healthy person. The constant fear of drafts, repeated dread of exposure to cold or heat are symptoms of bad health. If we would behave ourselves as well as the weather does there would be no cause for complaint. It is refreshing to come into the presence of the man or woman who can honestly say good morning, good afternoon, good evening—who can say it in such a way that you feel that they mean it.

Good feelings are contagious. An excess of vitality is catching. Good humor that bubbles over, that cannot be restrained even in the presence of uncongenial company, is wholesome and healthful.

Lots of good red blood is conducive to good manners, good morals and good morning. Any person who can honestly say good morning has had a fairly decent sleep the night before. A hearty good morning is a certificate of self restraint and a clear conscience.

The devotee of sensuous pleasure has rarely the honest right to say good morning. There are no good mornings for him. Dissipation has soured the atmosphere and poisoned the sunrise for him. If he says good morning at all he lies. It is merely a perfunctory remark. His languid manner and icy touch expose the falsehood covered by the words "good morning."

Good morning is the sequel of good behavior. The price one pays for a real good morning is a good day's work. Good sleep, early to bed, up early in the morning, then indeed it is a good morning.

Every morning is a good morning to such persons. They have paid the price for it and are entitled to it.—Medical Talk.

Reform That Was Too Thorough.

Old Lady Colburn was giving her granddaughter some good advice the week before her wedding. "Now it's all very fine for you to have these plans for making John over if he needs it," said the old lady. "He may have some ideas about reforming a few little habits of yours, my dear, but you don't want to go too far, either of you.

"When I was a girl somebody told me the story of a young woman who made the young man she married promise her he would have nothing to do with smoking. Well, that was all right enough, but he'd never been an intemperate smoker, and he missed the little soothing he'd been accustomed to get from his pipe once in awhile.

"But if ever she saw him looking at it she'd remind him, 'You promised me never to have anything to do with pipes or smoking when we were married.'

"Then one day the kitchen stove acted like all possessed—filled the room full of smoke. She said she thought the stovepipe needed cleaning, but he—he was kind of stubborn, same as most men are at times—he just sat there and said, 'I promised you when we were married never to have anything to do with pipes or smoking, and this comes under both heads.'

"And she had to go for the stove man herself, though he was a real considerate man, most ways, her husband was. You just bear in mind that little circumstance when you're making John over."

Monkeys and Knots.

The monkey's intelligence has never been able to arrive at a point which enables that animal to achieve the untying of a knot. You may tie a monkey with the simplest form of common knot, and unless the beast can break the string or gnaw it in two he will never get loose. To untie the knot requires observation and reasoning power, and, though a monkey may possess both, he has neither in a sufficient degree to enable him to overcome the difficulty.

Model Wives.

In a wedding sermon entitled "The Rib Restored," preached in St. Dionis Back church, Fenchurch street, in 1655, by Richard Meggot, afterward dean of Salisbury, the preacher thus defined a good wife:

"A help she must be in her family, being not only a wife, but a housewife—not a field wife, like Dinah, nor a street wife, like Thamar, or a window wife, like Jezebel, but a housewife."

And another preacher about the same date, the Rev. Simeon Singleton, said that a wife should be at once like and unlike three things. "First, she should be like a snail, always keep within her house; but she should not be like a snail, carry all she has upon her back. Secondly, she should be like an echo, to speak when she is spoken to; but she should not be like an echo, always to have the last word. Thirdly, she should be like the town clock, always keep time regularly; but she should not be like the town clock, to speak so loud that all the town may hear her."—T. P.'s London Weekly.

Patiently Wait For Her.

A Missouri contemporary rises to remark: "Once I was young, but now I am old, and I have never seen a girl that was unfaithful to her mother that ever came to be worth a one eyed button to her husband. It is the law of God. It isn't exactly in the Bible, but it is written large and awful in the miserable lives of many unfit homes. I'm speaking for the boys this time. If one of you chaps comes across a girl that, with a face full of roses, says to you as she comes to the door, 'I can't go for thirty minutes, for the dishes are not washed yet,' you wait for that girl. You sit right down and wait for her, because some other fellow may come along and carry her off, and right there you lose an angel. Wait for that girl and stick to her like a bur to a woolly dog."—Kansas City Journal.

Curious Bird Habits.

It is a well known fact that if the young of almost any kind of bird are taken from the nest before they can fly the old ones will feed them attentively if the cage in which the little birds are inclosed is placed somewhere where the parents can reach it, and a popular but erroneous belief is current that they do this for a time, and end by poisoning the young ones. This, however, is a mistake, the fact being that at a certain stage of a young bird's existence, when it is naturally able to begin catering for itself, the parent birds, also quite naturally, cease to attend it, and then, if the birdlings are shut up in the cage and their custodian has not thought of placing some food at their disposal they necessarily die, not from poison administered by the parents, but from starvation.

The Storthing.

Norway's legislative body is known as the storthing, which means the "great court" and should be pronounced to rhyme with "courting." The second part of the word is identical with the English word "thing," as the Scandanavian languages, in common with Anglo-Saxon, have the same word for "thing" and "council." In modern English a trace of the second sense survives in the word "hustings," which came to mean the public platform upon which a candidate appeared at election time, though originally the "husting" was the council at which the candidate was elected, the "house thing" or house council.

How Thermometers Are Made.

A small glass tube blown into a bulb at one end is partly filled with mercury. The mercury is boiled to expel the air and fill the tube with mercury vapor and then the tube is hermetically sealed and allowed to cool. The gradations are found as follows: The instrument is immersed in ice water and the freezing point is found and is marked. Then it is placed in water, which is allowed to reach the boiling point, and so 212 degrees is found. The spans between are marked by mathematical calculations.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c

PRINTERS RAISE LARGE FUND.

To Carry on the War Against the Chicago Typothetae.

Chicago, August 29.—Having already planned to raise funds to carry on a small army of men on strike indefinitely, officers of the Typographical union here today demanded signed agreements from members of the Typothetae guaranteeing the 8-hour day under threat of instant strike.

By aiming to have a general strike of job printers in all the big cities near Chicago, from Ohio to Misosuri, and Minnesota, local unionists plan to halt the importation of nonunion compositors from St. Louis, Indianapolis, St. Paul Minneapolis, Cincinnati, Cleveland and other cities, where the Chicago Typothetae had been advertising for men to work under 'open shop" rules. With these cities, themselves in the throes of a strike, members of the Typographical union No. 16 believe there will be no surplus of printers to be sent here. In addition to the six shops which posted open shop notices Saturday and came under the ban of the union, 27 other members of the Chicago Typothetae are threatened. Union officials expected that about ten of the remaining firms will declare for war.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed Trial bottle free.

Twenty Laborers Met Death.

Manzanillo, Mexico, August 29.—Twenty Mexican laborers were killed and a number injured by the premature explosion of a quantity of dynamite at the port works at Manzanillo. The bodies of those killed were horribly mangled. The remains of the 20 men were buried in a common grave in the Manzanillo cemetery. While it is said that the explosion was the result of carelessness on the part of some of the laborers, the families of those killed have been indemnified by Colonel Edgar K. Smoot, the contractor in charge of the Manzanillo port works. News of the tragedy was brought to this port by a steamer from Manzanillo.

Tragedy in Alabama City.

Talladega, August 29.—A sensational encounter and a probable killing occurred in the telegraph office here Sunday. Graves Embry, a lawyer, accused C. E. Bondurant, a telegraph operator, of wrecking his home and attacked Bondurant with a shoeknife, while the latter was sitting at his instrument, cutting him in the abdomen and side and severing a rib. Bondurant finished a message after receiving the wound. Embry yelled and raved like a mad man after bystanders rushed in and separated the men, and also while in the hands of the sheriff. Both men are prominent here. Mrs. Embry is a woman of great beauty and is now in Atlanta. Bondurant will probably die. The affair has created a profound sensation.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

Child Killed by Trolley Car.

Atlanta, August 29.—A car on the Marietta trolley line ran over and killed Bernice, the 5-year-old daughter of Mr. W. G. Cunningham, of 1298 Marietta street, Sunday. The accident occurred directly opposite Mr. Cunningham's residence, which is at Howell's station. Four or five persons witnessed it and they have made statements to Mr. Cunningham which he submitted to the coroner. It seems that the little girl, with another child, was playing across the street from her father's home and just as the car was about to pass she ran into the street and in front of the car. She was struck and run over, and was dead before help reached her.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Spent $200,000 in Three Years.

Chicago, August 29.—Williams Ely, held by the police for the Johannsen jewelry store holdup, has squandered $200,000 within three years, according to the confession he made last night to Inspector Shippy. This money, he said, was left him at the death of his father. Most of his fortune went in betting on horse races. Ely said. He further hinted that being unable to obtain employment he had been forced to become a holdup man. Two other men suspected of being the accomplices of Ely have been arrested.

Rheumatism.

When pain or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes June 6, 1903: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

Shot Boy By Mistake.

Wilmington, N. C., August 29.—Mistaking his 13-year-old brother-in-law for a burglar, Frank Hasty, of Delton, N. C., shot and killed Wade Robinson, a son of Engineer J. A. Robinson, of the Seaboard Air Line. Hasty heard the other boy in an adjoining room, secured his pistol and fired. The boy cried out and Hasty discovered his mistake. The victim died in seven hours.

Swedish Suffering

Is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at all drug stores; guaranteed.

Gainesville Was "Bumped."

Information reached this city Tuesday to the effect that the Gainesville Junior baseball team was defeated to the queen's taste by the High Springs Juniors in the game Monday afternoon, the score being 8 to 2 in favor of the boys of the latter place. The Gainesville boys left in the morning for Live Oak, where Tuesday afternoon they met the Juniors of that place. The result of this game was not learned.

Streets Being Improved.

A force of workmen is engaged on West Mechanic street, between N. Garden and N. Pleasant. Curbing is being placed on both sides, and the thoroughfare will be properly graded and the depressions caused by the continued rains filled. Curbing is also being placed along West Orange street, between West Main and N. Garden.

A Pleasant Party.

Mrs. M. A. Easterlin and daughter, Miss Callie, entertained in an informal manner a few friends at their home, 207 W. Orange street, Monday evening. The evening was passed in a manner appropriate to the occasion, and those present are under obligations to the clever hostesses.
